

LAPTOP LOVE

But I don't want to go out
I want to stay in
Get things done

Im standing in front of my door
trying to get the wifi
this isn't working
so I decide to go back inside
baaaaack inside,
Inside,

There's no sign of life
the internet is all that's on,
I'm thinking of my friends
But Id rather be inside,
Ohhhh inside,
inside

so glad I fell for
(Technology)
keeps me company
(Technology)
is right on time
(Technology)
gives me data all the time
(all the Time)
entertains me
(all the Time)
why would I party
(any Time)
when I have my modern man
(modern Man)
never lonely
(modern Man)
never moany
(modern Man)
I now believe
In my laptop

It's never hard work
he's got the power to charm
sometimes I think of my friends
But I'd rather be inside,
ohh inside,

inside,

so glad I fell for
(Technology)
keeps me company
(Technology)
is right on time
(Technology)
gives me data all the time
(all the Time)
entertains me
(all the Time)
why would I party
(any Time)
when I have my modern man
(modern Man)
never lonely
(modern Man)
never moany
(modern Man)
I know believe
In my laptop

Modern love - Modern love[x12]
Modern love - Modern love, oh never leave me
Modern love, be with me all the time
